Professional Summary

Backend developer experienced across both **reactive** (Spring WebFlux) and **traditional** (Spring MVC, JPA/Hibernate) stacks. Skilled in **Neo4j**, **Kafka**-based messaging, **Spring Security**, and designing scalable, production-grade REST APIs.

Experience

Junior Backend Developer (Java) | **Dhrubok Infotech Services Limited, Dhaka** Jan 2026 – Present

- **Hospitalia** — Doctor's appointment booking application.
  - Solved appointment coordination between doctors and patients by building booking, schedule-lookup, and cancellation workflows, eliminating manual scheduling conflicts.
- **TaskATask** — Task management platform using **Spring WebFlux** and **Neo4j**.
  - Built a real-time **chat system** using **WebFlux Sinks**, supporting group conversations, pin/archive/mute, scheduled and self-destructing messages.
  - Secured message content end-to-end with **Jasypt** encryption/decryption at the persistence layer.
  - Engineered bulk contact-import pipeline (up to **10,000 records**) via **Redis**-backed job queues with chunked processing and batch duplicate-detection queries, cutting import latency significantly.
  - Designed appointment accept/reject/reschedule flow with **Kafka**-driven notifications, synced to **Google Calendar** and **iCalendar**.
  - Implemented **multi-provider OAuth2** authentication — Google, Facebook, Apple, and email/phone OTP.
  - Diagnosed and fixed a critical **Neo4j** bug causing full-relationship fetch on every node save; resolved via projection-based updates for scalar fields and custom **Cypher** queries for relationships.

Backend Developer (Java) Intern | **Dhrubok Infotech Services Limited, Dhaka** Oct 2025 – Dec 2025

- Implemented full-text search using **Hibernate Search** with a **Lucene backend** and custom analyzers for flexible querying.

Skills and Tools

Languages: Java, JavaScript, HTML, CSS, C, Python

Frameworks: Spring Boot, Spring WebFlux, Reactive Java, Spring Security

Databases: Neo4j, MySQL, PostgreSql, Spring Data JPA, Hibernate, Spring Data Neo4j

Messaging & Caching: Kafka, Redis

DevOps & Tools: Docker, Git, GitHub, Postman, IntelliJ IDEA, VS Code

Education

Green University of Bangladesh Feb 2022 – Feb 2026

Bsc in Computer Science and engineering **CGPA:** 3.32

Projects

AgroTrends - Agricultural Knowledge Platform | GitHub Link

- Full-stack platform with blogs, Q&A, and category management featuring authentication and role-based access control.
- **Tech:** Java, Spring Boot, Spring Security, MySQL, Spring Data JPA, Thymeleaf.

E-Commerce Application | GitHub Link

- Secure e-commerce platform with product search, filtering, cart, order placement, payment integration, and JWT auth.
- **Tech:** Java, Spring Boot, Spring Security, MySQL, Hibernate, JPA.
